

Sure to happen	Very likely to happen
To be bound to happen It definitely/absolutely will happen It will presumably happen There's no doubt it will happen I'm in no doubt it will happen	It almost definitely will happen There is a strong/distinct possibility (that) it will happen The chances are that it will happen It's possible that it will happen
Likely to happen	Unlikely to happen
It may/might well happen There is every likelihood that it will happen There is every chance that it will happen	There's a slight/remote possibility that it will happen I doubt whether it will happen It probably won't happen The odds are against smth/ smth happening It is doubtful that it will happen There is a slim chance that it will happen There is very little chance that it will happen It is unlikely that it will happen It could conceivably happen
Impossible	
You haven't a hope of (doing it) It is inconceivable that it will happen It stands no chance of happening You don't stand a chance of doing it There's no hope of doing it There's no chance of doing it
