

***Listening Comprehension. 1-07.*** ex. 2, p. 21.

Listen to 2 students talking about the environment. What problems do they mention?

Task 1: Explain the meaning of the following phenomena:

- 1. greenhouse gases**
- 2. global warming**
- 3. climate change**
- 4. overconsumption of energy**

Task 2: Answer the questions:

1. What attitude is a 'rather defeatist' one, according to Student 2?
2. What does Student 1 suggest doing to consume fewer sources of energy?
3. What are the second student's propositions?
4. Can you agree that Student 2 overdramatizes human intervention and its impact on climate change?
